

BRAIDED AND KNITTED PIPING CORD

NBI manufactures a range of braided and knitted piping cords, which is primarily used decoratively and/or to enhance durability in clothing, home furnishings and furniture. Also known as insert braids, some piping cords are used as a core in the fabric, forming a defined edge in matching or contrast fabric. Others are used as an edge or lip cord enhancing the appearance, directly. Certain piping cords are firm and smooth, providing a clear outline whilst others are soft and pliable, providing a completely different effect.

ACCREDITATION

NBI products are manufactured in accordance with the ISO 9001:2015 quality management system.

The in-house laboratory, where continuous product testing during the manufacturing process is done, allows for consistent quality and specification adherence.

CONSTRUCTION

Piping cords are produced from cotton, polyester and polypropylene yarn. Yarns used in the manufacture of piping cords are of superior quality, thus producing products of excellent performance abilities.

Piping cords are available in different finishes:

- Waxed – this piping is firm and provides steady piping for a more defined trim
- Unwaxed – this is softer piping, that enables a more supple end result

KEY FEATURES & BENEFITS

- DIVERSE PRODUCT
- VARIOUS WIDTH OPTIONS
- COLOURFAST
- DIFFERENT FINISHING CHOICES
- FIRM AND SOFT BRAIDS
- EXCELLENT QUALITY

INDUSTRY APPLICATIONS

NBI PIPING CORDS ARE USED IN VARIOUS INDUSTRIES:

- CUSHIONS
- HANDICRAFTS
- GIFT WRAP
- BED VALANCES
- LOOSE COVERS
- FURNITURE
- PILLOW COVERS AND DUVETS
- PACKAGING
- CLOTHING
