

## MEDICAL CORD

NBI manufactures and supplies braided cotton and polyester cords to the medical industry for use as traction cords. The cords meet and exceed medical specification requirements. The outer covering is braided with a tight braid pattern resulting in a smooth, uniform cord, perfect for medical end usage. The range is compact as it is custom made for the medical industry and is used for the purpose of traction capabilities only.

### ACCREDITATION

NBI products are manufactured in accordance with the ISO 9001:2015 quality management system.

The in-house laboratory, where continuous product testing during the manufacturing process is done, allows for consistent quality and specification adherence.

## CONSTRUCTION

- Yarns used in the manufacture of paracords are of superior quality, thus producing products of excellent performance abilities.
- The outer covering is braided with a tight braid pattern resulting in a smooth, uniform cord, perfect for medical end usage.

## KEY FEATURES & BENEFITS

- EXCELLENT QUALITY
- SUPERIOR STRENGTH CAPABILITIES
- CONFORMITY TO SPECIFICATION

## INDUSTRY APPLICATIONS

THE RANGE IS COMPACT AS IT IS CUSTOM MADE FOR THE MEDICAL INDUSTRY AND IS USED FOR THE PURPOSE OF TRACTION CAPABILITIES ONLY.
