

LEISURE MARINE ROPE

NBI produces general purpose yacht and boat ropes that are used for marine applications, sailing and other sports. The line of yacht ropes are specifically engineered to provide the strength, abrasion resistance and elongation characteristics necessary for commercial nautical or marine operations. The NBI yacht ropes – also called boat, marine or nautical ropes – are easy and safe to handle and provide an extensive corrosive free service life.

ACCREDITATION

NBI Specialised Marine Ropes are manufactured in accordance with the ISO 9001:2015 quality management system.

The in-house laboratory, where continuous product testing during the manufacturing process is done, allows for consistent quality and specification adherence.

CONSTRUCTION

- Yarns used in the manufacture of NBI Specialised Marine Ropes are of superior quality, thus producing product of excellent performance abilities.
- NBI marine ropes are coiled or spooled and supplied in shrink wrapped packages.

OUR LEISURE MARINE ROPE RANGE

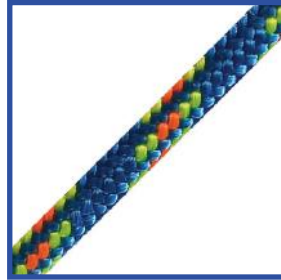

DINGHY ROPES (HMPE LIGHT)

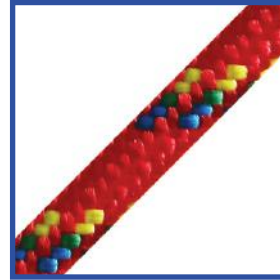

Q5165 2MM DINGHY CORD
 BREAKING STRENGTH: 150KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

Q5166 3MM DINGY CORD
 BREAKING STRENGTH: 200KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

Q5167 4MM DINGY CORD
 BREAKING STRENGTH: 350KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

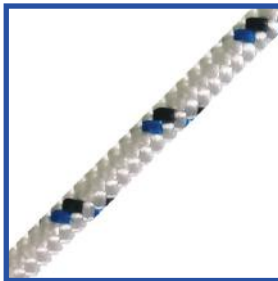

Q5168 5MM DINGY CORD
 BREAKING STRENGTH: 500KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

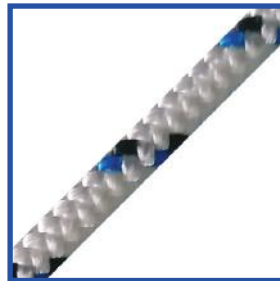

Q5169 6MM HMPE LIGHT
 BREAKING STRENGTH: 600KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

LEECH LINES

Q5170 3MM HMPE LEECH LINE
 BREAKING STRENGTH: 700KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

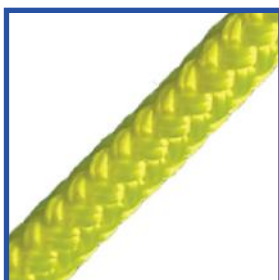

Q5171 4MM HMPE LEECH LINE
 BREAKING STRENGTH: 900KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

Q5172 6MM HMPE LIGHT
 BREAKING STRENGTH: 680KG
 CONSTRUCTION: POLYESTER
 SHEATH, HMPE CORE

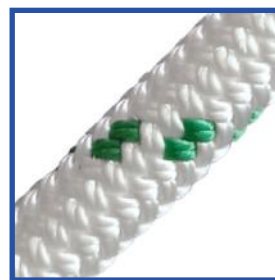

OFFSHORE SAILING ROPES

Q5174 6MM YACHT BRAID
 BREAKING STRENGTH: 950KG
 CONSTRUCTION: POLYESTER

Q5175 8MM YACHT BRAID
 BREAKING STRENGTH: 1400KG
 CONSTRUCTION: POLYESTER

Q5176 10MM YACHT BRAID
 BREAKING STRENGTH: 2200KG
 CONSTRUCTION: POLYESTER

Q5177 12MM YACHT BRAID
 BREAKING STRENGTH: 3000KG
 CONSTRUCTION: POLYESTER
